Call for Submissions to SPLASH 2014

The ACM SIGPLAN conference on Systems, Programming, Languages and Applications: Software for Humanity (SPLASH) embraces all aspects of software construction and delivery to make it the premier conference at the intersection of programming, languages, and software engineering.

Events:

OOPSLA - Research papers on the aspects of software development including requirements, modeling, prototyping, design, implementation, generation, analysis, verification, testing, evaluation, maintenance, reuse, replacement, and retirement of software systems.

Onward! - Premier conference focused on everything to do with programming and software: including processes, methods, languages, communities, and applications.

Dynamic Languages Symposium (DLS) - Premier forum for researchers and practitioners to share knowledge on dynamic languages, implementation, and applications.

OOPSLA Artifacts - The process helps authors of accepted OOPSLA papers to provide more substantial supplements to their papers so future researchers can build on and compare with previous work.

Wavefront - Looking for presentations and technology talks of interest to the software community, particularly to software professionals working in companies.

Workshops - Complement the main tracks of the conference and provide meetings in a smaller setting.

SPLASH-E - Brings together researchers and educators to share educational results, ideas, and challenges centered in software and programming languages.

Tutorials - Current topics in software, systems, and languages research.

Also - Demos, Posters, Doctoral Symposium, Student Research Competition, Student Volunteers.

Important Dates:

- 25 March: OOPSLA Papers and Onward! Papers
- 29 March: Onward! Essays
- 19 April: Workshops (early phase)
- 25 April: Wavefront
- 1 June: Tutorials
- 8 June: Dynamic Languages Symposium
- 10 June: OOPSLA Artifacts
- 13 June: Doctoral Symposium
- 20 June: SPLASH-E and Workshops (late phase)
- 29 June: Demos
- 1 July: Student Research Competition
- 5 August: Student Volunteers
- 19 September: Early Registration Deadline

Organization Committee:

General Chair: Andrew Black, Portland State University

OOPSLA Papers Chair: Todd Millstein, UCLA

Onward! Papers Chair: Shriram Krishnamurthi, Brown

Onward! Essays Chair: Bernd Bruegge, TU Munich

DLS Chair: Laurence Tratt, Kings College, London

Wave Front Co-Chairs: Dennis Mancl, Alcatel–Lucent and David Archer, Galois

Artifact Evaluation: Matthias Hauswirth, University of Lugano and Robby Findler, Northwestern University

Workshops Co-Chairs: Stephanie Balzer and Du Li, CMU

Tutorials Chair: James Noble, Victoria University of Wellington

Demos Chair: Floreal Morandat, Enseirb-Matmeca

Posters Co-Chairs: KR Jayaram, HP Labs and Nick Sumner Simon Fraser University

SPLASH-E Chair: Kathi Fisler, Worcester Polytechnic Institute

Doctoral Symposium Chair: Lukasz Ziarek, SUNY Buffalo

Student Research Competition Co-Chairs: Isil Dillig, UT Austin and Sam Guyer, Tufts University

Student Volunteer Co-Chairs: Jonathan Bell, Columbia University and Darya Kurilova, CMU

Publicity and Web Chair: Craig Anslow, University of Calgary
